

ATTACHMENT A

Remarks

In the outstanding Office Action, claims 1-41 were rejected under the judicially created doctrine of obviousness-type double patenting as being obvious over applicant's priori USP 6,720,949. As also noted, a terminal disclaimer would serve to overcome this rejection. Therefore, provided herewith is a Terminal Disclaimer for the noted patent.

It will also be noted that the specification has been amended to add the patent number of the referenced application in place of the asterisk.

As the claims are otherwise allowable and no other objection or rejection is made, it is submitted that the present application is in condition for allowance and such action is solicited.
